

Data sheet | Item number: 2759-242/261-1000 **NEW**

Application Weather Station; Shadow Correction; Single License; Online Activation

www.wago.com/2759-242_261-1000

Item description

The "Shadow Correction" function extends the sun position-dependent slat tracking and additionally optimizes the supply of daylight in the rooms. It takes the shading caused by surrounding buildings and vegetation into account according to an existing shading analysis for the specific property. As a result, only the blinds that are actually in the sun are adjusted to the sun's position. Blinds of the shaded windows can be raised, or their slats can be set in a horizontal position, to improve the supply of sunlight in the room, increasing workplace comfort.
