### Item description

#### WAGO OPC Server MODBUS/TCP

The OPC standard defines an open industrial interface which can be used by PC-based software components to transfer data. The interface is based on the OLE (Object Linking and Embedding), COM (Component Object Model), and DCOM (Distributed COM) Windows technologies. OPC therefore offers the ideal basis for linking industrial applications, or MS Office programs with the automation level field devices, such as the WAGO-I/O-SYSTEM 750. The MODBUS/TCP-OPC server from WAGO enables extremely simple and convenient access to your MODBUS/TCP-ETHERNET devices. Simple configuration of the OPC server shortens the time needed for training and startup.

### Data

#### System requirements

Supported operating systems

Windows XP (SP3 or later)

#### Software data

OPC specifications

Data Access V 1.0A; Data Access V 2.04

Supported protocols

MODBUS/TCP and MODBUS via UDP

## Delivery

Included	incl. configuration tool
----------	--------------------------

## Commercial data

Product Group	27 (Special components I/O)
Packaging type	BOX
Country of origin	DE
GTIN	4017332807265
Customs Tariff No.	85234920009

## Counterpart

## Downloads

### Documentation

#### Manual

MODBUS/TCP OPC Server (Manual on CD-ROM included in 759-311 scope of delivery)	V 1.1.0	pdf 521.3 kB	Download
---	---------	-----------------	----------

## Installation Notes

Subject to changes. Please also observe the further product documentation!
