## Item description

WAGO Automation Cockpit is an expansion of the CODESYS development environment WAGO-I/O-PRO V2.3. The integrated development environment is based on CODESYS and includes the configuration, planning and programming for all WAGO devices. This includes the HMI devices, as well as couplers and controllers found in the WAGO I/O System 750.

WAGO Automation Cockpit is also the hub for all available WAGO tools, including ETHERNET-Settings, WAGO-I/O-CHECK, I/O-Update, etc.

Extensive project management permits network and device configuration.

The IEC-61131 programming environment (CODESYS software) is integrated for device programming.

The version management of the installed CODESYS software versions can be maintained as another support from WAGO Automation Cockpit.

WAGO AUTOMATION COCKPIT® includes the following programs:

- 759-911 WAGO-I/O-PRO
- 759-920 WAGO-I/O-CHECK
