

Item description

WAGO Automation Software **e!COCKPIT** for faster machine and system startup: WAGO's new engineering software shortens development time for automation projects while impressing with a modern and clearly laid out user interface. At the software's core is CODESYS V3 for simple and versatile creation of applications.

Ensuring a project's long-term viability through sustainable cost savings

hinges on a user's ability to quickly adapt to new software that offers a high degree of reusability.

WAGO set out to fulfill these exact requirements by developing its own engineering software: **e!COCKPIT**. This integrated development environment supports every automation task, from hardware configuration, programming, simulation and visualization up to commissioning – all in one software package.

Use the programming tool to cover all important automation bases while simultaneously engineering particularly complex projects quickly and easily.

Configuration and Parameterization

The integrated **e!COCKPIT** configurators provide modern operating tools and workspaces,

such as:

- Graphical network topology: Complex relationships between network devices and their current states can be identified easily and intuitively.

Subject to changes. Please also observe the further product documentation!

- Drag & Drop: Simplifies device interaction.
- Copy & Paste: Individual devices or whole network branches can be duplicated quickly.
- Batch processing: Parameter values are set simultaneously for several devices.

Programming

e!COCKPIT offers multiple software development options:

- IEC 61131-3 PLC programming languages: Structured Text (ST), Ladder Diagram (LD), Function Block Diagram (FBD), Instruction List (IL), Sequential Function Chart (SFC),

Continuous Function Chart (CFC)

- For flexibility, all programming languages can be combined with one another.
- Created programs can be easily debugged on the engineering PC via simulation.
- New paradigms such as object-oriented programming are included.

Visualization

Advanced user interfaces for operating and monitoring machines are standard. Today, HMI-based design is a critical factor that influences the purchase of an entire automation line. *e!COCKPIT* employs Drag & Drop to streamline the design of modern user interfaces. The integrated visualization editor provides:

- Access to IEC program variables
- Closed simulation of HMI and PLC programs on the engineering PC
- Guaranteed language independence via Unicode character set
- Current standards such as HTML 5 or CSS

Diagnostics

Being acutely aware of the automation network's current status is an absolute must for the rapid detection and elimination of errors – be it during development in the office or directly on the machine during commissioning.

e!COCKPIT provides comprehensive diagnostic capabilities:

- Individual views, for example, always display the controllers' status information both graphically and in tabular form.
- To keep the project on time, error messages are transmitted directly and clearly.
- The structured wiring test function systematically identifies wiring errors.

Note:

Register for *e!COCKPIT* Engineering Software:

Data

System requirements

Supported operating systems	Windows 7 (32- and 64-bit) Windows 8 Windows 8.1 (32- and 64-bit) Windows 10
Processor	Core2Duo
RAM memory	4 GB
Hard disk storage	min. 9.77 GB
Graphics resolution	1,366 x 768 px

Software data

Supported devices	Controllers based on CODESYS 3; I/O Modules (750/753)
Supported fieldbuses	CANopen, MODBUS TCP/UDP, MODBUS RTU, PROFIBUS
Supported device descriptions	DTP, EDS, GSD
Connectivity	TCP, USB, OPC, CODESYS network variables, CODESYS DataServer
Programming languages per IEC 61131-3	ST, LD, FBD, IL, FC, CFC
Import/export formats	CODESYS 3 project files (*.project)

Delivery

License type	Workplace license
Delivery type	Installation file (download)
License type note	Workplace license: Allows installation on up to two PCs (e.g., notebook & desktop)
License type note (2)	Internet connection may be required for license activation.

Commercial data

Packaging type	0
Country of origin	QU
GTIN	4055143327343
Customs Tariff No.	88888888888

Tutorial

Store process data using the WagoAppDatalogger	1.0	mp4	Download
In this video we are demonstrating how to store process data on the Controller using e!COCKPIT and the WagoAppDatalogger library. Contents: 0:21 Add WagoAppDatalogger library; 0:47 Insert datalogger function block; 1:38 Set up configuration parameters; 2:33 Initialize channels; 3:12 Optional: Add visualisation; 3:44 Start datalogger; e!COCKPIT version used: 1.3.1.4; Controller used: 750-8100 (FW10)	Aug 15, 2017	123.2 MB	

Use Frames for Visualisation Templates in e!COCKPIT	1.0	mp4	Download
In this video we are demonstrating how to create a template visualization and use it in frames. Content: 0:22 – Create Visualization; 1:01 – Define the Interface; 2:11 – Creating Variables in the Program; 2:41 – Insert Frames; 3:43 – Optional: Switch Frames	Oct 9, 2017	151.3 MB	

Retrieve data from a meter using the M-Bus module 753-649	1.0	mp4	Download
In this video we are demonstrating how to read an electricity M-Bus meter by using the M-Bus module 753-649 in e!COCKPIT. Contents: 0:22 Set up the hardware configuration; 0:43 Insert WagoAppM_Bus library; 1:01 Add the master function block; 1:40 Add the meter function block; 2:14 Create a timer; 3:03 Convert units; 3:59 Start the program; e!COCKPIT version used: 1.3.1.4; Controller used: 750-8202 (FW10)	Sep 8, 2017	130.1 MB

Application Notes

Application Note e!COCKPIT

eCOCKPIT application note WagoAppSMI	2019-09-09	pdf	Download
This application note describes the basic procedure for connecting and controlling SMI drives (Standard Motor Interface) with the WAGO SMI Master Module (753-163x).	Sep 9, 2019	1.3 MB	
eCOCKPIT application note WagoAppM_Bus	2019-09-09	pdf	Download
This application note describes how connecting energy meters via the M-Bus Master Module to the WAGO-I/O-SYSTEM 750 can be established. In addition, the application note also describes the function and export of the included sample project that can be used to read M-Bus meters.	Sep 9, 2019	1.9 MB	
e!COCKPIT Anwendungshinweis: Wago Cloud IO-Connector	2019-12-13	zip	Download
	Dec 13, 2019	131.7 MB	

Subject to changes. Please also observe the further product documentation!

The "WAGO Cloud-I/O-Connector" application automatically identifies the process image on the local bus and creates a tag configuration for the communication with the WAGO cloud. The application is transferred to a PFC (750-8207) via SD card as an executable image. The application is parameterized via Web visualization.

eCOCKPIT application note WagoAppDMX This application note describes how a DMX master for DMX device control can be performed via 750-652 serial interface.	2019-09-09 Sep 9, 2019	pdf 1.4 MB	Download
eCOCKPIT application note WagoAppEnOcean This application note describes how communication between the WAGO-I/O-SYSTEM and different EnOcean wireless sensors can be implemented using the WagoAppEnOcean library.	2019-09-09 Sep 9, 2019	pdf 1.2 MB	Download
e!COCKPIT application note WagoAppDALI This application note describes the WAGO DALI Configurator, the integration of the DALI visualization for configuring ECG's and the implementation in an e!COCKPIT application.	2019-09-09 Sep 9, 2019	zip 2.6 MB	Download
eCOCKPIT application note WagoAppMP_Bus This Application Note explains how a WAGO fieldbus controller sets up communication to the MP-bus actuators via the MP-bus master module (750-643).	2019-09-09 Sep 9, 2019	pdf 976.7 kB	Download
eCOCKPIT application note WagoAppScheduler This application note describes different applications of the WagoAppScheduler library.	2019-09-09 Sep 9, 2019	pdf 1.5 MB	Download
eCOCKPIT application note installation MySQL-Server This Application Note explains how a MySQL-Server can be set up and used on a PFC 200. The Application shows how measurement values of the 3-Phase Power Measurement Module can be written into a database.	2019-09-09 Sep 9, 2019	pdf 1.9 MB	Download
e!COCKPIT application note WagoSolHKW The Application Note explains how communication between the WAGO-I/O-SYSTEM and an HKW electronic weather forecast station (compact) can be established.	2019-09-09 Sep 9, 2019	pdf 1.0 MB	Download
e!COCKPIT application note ToPass The TO-PASS® application (750-8207) makes it possible to send error messages via SMS and transfer the process data to an Internet portal via HTTP (e.g., www.to-pass.com).	1.0.0.2 Feb 13, 2020	zip 66.3 MB	Download
eCOCKPIT application note WagoSolElsner This application note describes how communication can be set up between the WAGO I/O System and the ELSNER P03/3 weather station with a Modbus interface.	2019-09-16 Sep 16, 2019	pdf 915.7 kB	Download
eCOCKPIT application note WagoAppKNX Subject to changes. Please also observe the further product documentation!	2019-09-09	pdf	Download

This quick start guide outlines the necessary steps for creating an application with the KNX/EIB/TP1 module.	Sep 9, 2019	1.6 MB	
e!COCKPIT application note HVAC macros WAGO provides system macros for HVAC applications that are based on WagoAppBuilding_HVAC library	2019-09-09 Sep 9, 2019	pdf 11.6 MB	Download
e!COCKPIT application note WagoAppWeatherForecast This application note describes the WagoAppWeatherForecast.library. It provides access to the meteorological services OpenWeatherMap, World Weather Online and Apixu.	2019-09-09 Sep 9, 2019	pdf 964.8 kB	Download
e!COCKPIT application note WagoAppControlSuite This application note describes the WagoAppControlSuite.library . It provides basic function blocks for control engineering applications.	2019-09-09 Sep 9, 2019	pdf 1.1 MB	Download
eCOCKPIT application note WagoAppBuilding This application note describes the use of the "WagoAppBuilding" library using sun protection macros.	2019-09-09 Sep 9, 2019	pdf 1.6 MB	Download
eCOCKPIT application note WagoAppDatalogger This application note describes the use of the WagoAppDatalogger. Up to 160 analog or digital signals can be recorded.	2019-09-09 Sep 9, 2019	pdf 1.8 MB	Download
e!COCKPIT application note Mobotix This application note describes how communication between the WAGO I/O System and a Mobotix IP video camera with PoE+ (Power over Ethernet) (TCP/IP) interface is realized.	2019-09-09 Sep 9, 2019	pdf 2.9 MB	Download
openVPN with Linux based Devices (a500880) This application note shows the necessary steps to establish a secure data connection with Linux-based devices under use of openVPN.	V1.1.1 Aug 4, 2016	zip 31.9 MB	Download
e!COCKPIT Anwendungshinweis flexROOM® Weather Decoder This Application Note explains how the flexROOM® Weather application can be integrated into a project in which no flexROOM® Office distribution boxes are used.	2019-09-09 Sep 9, 2019	pdf 1.3 MB	Download
e!COCKPIT application note WAGO Room Automation Macro The "WAGO Room Automation Macro" application contains a room configuration concept based on room segments. Sensors and actuators from the "Sunshade," "Lighting" and "Room Temperature Control" sections can be assigned to these room segments. In addition, the room segments can be combined flexibly into rooms by placing partitions. The application supports up to 24 segments on one controller by default. Further controllers running the same application can be connected via Modbus® over UDP.	V1.0.3 Aug 29, 2019	zip 5.8 MB	Download

enables communication between different bus and/or communication systems and shortens the integration time. The user-friendly web interface allows the user to exchange information and measured values between different systems. The pre-configured application shortens startup times, especially in building technology. The WAGO Gateway Application currently enables communication with Modbus RTU, Modbus IP (TCP/UDP) and KNX-TP devices. Every conceivable combination is possible.

Application Note e!COCKPIT - Dynamic Configuration

In some cases, the node structure should be flexibly and automatically scanned when the controller is started and the corresponding access rights to the data from the connected module made available, without creating a previous static configuration. The DynKbusIoManager supports such a procedure. These Application Notes describe the operating principle and application possibilities of the DynKbusIoManager for using the dynamic configuration on a PFC in combination with e!COCKPIT.
