Item description

Cable assembly WINSTA® MINI B coding

For signal and power transmission: The *WINSTA*® MINI cable assembly 4-pole. On PCBs, in control cabinets or for connecting lights – pluggable installation connectors from WAGO allow you to make connections according to a huge variety of requirements in seconds. For greater security in electrical installations, the pluggable installation connector is equipped with mechanical protection against mismating. The pluggable installation connector offers protection against contact with wires or tools if they are smaller than 1 mm in accordance with protection type IP40. Solutions like the *WINSTA*® MINI pluggable installation connectors with B coding are appropriate for applications related to process control, such as for lighting or in data networks. Thanks to its particularly compact dimensions, our *WINSTA*® MINI Pluggable Connection System with Push-in CAGE CLAMP® spring pressure connection technology is very suitable in very tight spaces, i.e., for connections when very little room is available. This product meets all the relevant fire protection requirements of fire class E; as a result it can be used in areas where fire safety is relevant.

Fast, error-free assembly thanks to cable assemblies from WAGO

A socket and a free end are available. The WINSTA® Pluggable Connection System is perfectly tailored to the strict requirements of building installation. It makes electrical installation pluggable, and therefore more efficient, even more reliable, and error-free. Use of this pre-assembled system decreases assembly times and installation errors at the construction site. Enjoy the benefits of the pluggable version of our maintenance-free spring pressure connection technology too! Plan your installation with *WINSTA®* MINI pluggable installation connectors with strain relief hosting from WAGO.

- effective protection against mismating
- compact design for conductors with a cross-section up to 1.5 mm²
- for automation controllers
- exact dimensions
- convenient installation and commissioning

Subject to changes. Please also observe the further product documentation!

Data Notes

1	V٥	te

Cables with a different fire class can be found in the eShop.

Variants:	Other pole markings
Other versions (or variants) can be requested from WAG	
	configured at https://configurator.wago.com/.

Electrical data

Note on contact resistance	approx. 1 m Ω of contact resistance
	approx. 0.25 m Ω contact transition plug/socket

IEC Approvals

Ratings per	IEC/EN 60664-1	
Rated voltage (III / 3)	400 V	
Rated impulse voltage (III/3)	6 kV	
Rated current	16 A	
Note (rated current)	13 A for 3-pole load 10 A for 4-pole load	
Legend (ratings)	(III / 3) ≙ Overvoltage category III / Pollution degree 3	

Ratings per UL

Note for the US market	Some versions may also be used for current interruption in
	accordance with the UL certificate in select applications with
	currents below 5 A and voltages up to 600 V. For further information,
	please contact your local sales office.

Connection data

Total number of potentials	4
Conductor preparation	ultrasonically tip-bonded

Connection 1

Sheathed cable diameter 8.4 10.5 mm Wire cross-section 1.5 mm² Strip length (outer insulation) 38 mm	
Strip langth (outer insulation)	
Strip length (Outer institution)

Connection type	Socket - Free end
Physical data	
Pin spacing	4.4 mm / 0.173 inch
Total length	4 m
Mechanical data	
Application	Control technology
Coding	В
Variable coding	No
Marking	1234
Potential Marking	1234
Mating force of a plug-in connection	approx. 20 70 N (depending on pole number)
Retention force of a plug-in connection	when locked: > 80N
Unmating force of a plug-in connection	when unlocked: approx. 20 70 N (depending on pole number)
Number of mating cycles	200, without resistive load
Connection type	Socket - Free end
Type of pre-assembled cable	Connecting cable
Cable type	Control line 4 x 1.5
Protection type	IP40
Plug-in connection	
Mismating protection	Yes
	All WINSTA® components are 100% protected against mismating
Mismating protection	All WINSTA® components are 100% protected against mismating when:
Mismating protection	All WINSTA® components are 100% protected against mismating when: a.) plugging different numbers of poles
Mismating protection	All WINSTA® components are 100% protected against mismating when:
Mismating protection Note on mismating protection	All WINSTA® components are 100% protected against mismating when: a.) plugging different numbers of poles b.) plugging while rotated 180
Mismating protection Note on mismating protection Locking lever	All WINSTA® components are 100% protected against mismating when: a.) plugging different numbers of poles b.) plugging while rotated 180 c.) plugging while laterally staggered d.) plugging one pole Can be retrofitted
Mismating protection Note on mismating protection	All WINSTA® components are 100% protected against mismating when: a.) plugging different numbers of poles b.) plugging while rotated 180 c.) plugging while laterally staggered d.) plugging one pole
