Item description

Cable assembly WINSTA® MINI with protection type IP20

The WINSTA® MINI cable assembly rated current 16 A supports rapid, correct installation. On PCBs, in control cabinets or for connecting lights – pluggable installation connectors from WAGO allow you to establish connections according to many different requirements in no time flat. The color coding and mechanical coding of the pluggable installation connector ensure error-free installation of the individual components – including protection against mismating. Pluggable installation connectors with B coding from the WINSTA® MINI line are available in pink, light grey, or grey, allowing you to distinguish different circuits, for example for pumps, lighting, or sun blinds. Customer-specific pole marking is possible as well. Where space is tight, our smallest pluggable connection system, WINSTA® MINI, conveniently displays its advantageous properties. It saves space, and, thanks to Push-in CAGE CLAMP® spring pressure connection technology, it additionally saves time, since the connection is low-maintenance and requires no screw connections. This product meets all the relevant safety requirements of fire class E; therefore it can be used in areas where fire safety is relevant.

Fast, secure pluggable connections - cable assemblies from WAGO

A plug and a free end are available. WINSTA® is the pluggable connection system that is ideally tailored to the strict requirements of electrical installation. It offers fast, secure and, above all, error-free installation of components and cables. Enjoy the benefits of the pluggable version of our maintenance-free spring pressure connection technology too! Plan your installation with *WINSTA®* MINI pluggable installation connectors with protection against mismating from WAGO.

- pluggable installation connectors with protection against mismating
- consistent IP40 protection
- for automation controllers
- ready to install and use immediately
- convenient installation and commissioning

Subject to changes. Please also observe the further product documentation!

Data **Notes**

Note

Cables with a different fire class can be found in the eShop.

Variants: Other pole markings Other versions (or variants) can be requested from WAGO Sales or configured at https://configurator.wago.com/.

Electrical data

Note on contact resistance approx. 1 m Ω of contact resistance approx. $0.25 \text{ m}\Omega$ contact transition plug/socket

IEC Approvals

Ratings per	IEC/EN 60664-1
Rated voltage (III / 3)	400 V
Rated impulse voltage (III/3)	6 kV
Rated current	16 A
Note (rated current)	13 A for 3-pole load 10 A for 4- and 5-pole load
Legend (ratings)	(III / 3) ≙ Overvoltage category III / Pollution degree 3

Ratings per UL

Note for the US market Some versions may also be used for current interruption in accordance with the UL certificate in select applications with currents below 5 A and voltages up to 600 V. For further information, please contact your local sales office.

Connection data

Total number of potentials	5
Conductor preparation	ultrasonically tip-bonded

Connection 1

Number of poles	5
Sheathed cable diameter	9.3 11.6 mm
Wire cross-section	1.5 mm ²
Strip length (outer insulation)	38 mm

Subject to changes. Please also observe the further product documentation!

Connection type	Plug - Free end
Physical data	
Pin spacing	4.4 mm / 0.173 inch
Total length	8 m
<u> </u>	
Mechanical data	
Application	Control technology
Coding	В
Variable coding	No
Marking	12345
Potential Marking	12345
Mating force of a plug-in connection	approx. 20 70 N (depending on pole number)
Retention force of a plug-in connection	when locked: > 80N
Unmating force of a plug-in connection	when unlocked: approx. 20 70 N (depending on pole number)
Number of mating cycles	200, without resistive load
Connection type	Plug - Free end
Type of pre-assembled cable	Connecting cable
Cable type	Control line 5 x 1.5
Protection type	IP20; IP40 when mated
Plug-in connection Mismating protection	Yes
Note on mismating protection	100
Note on mismating protection	All WINSTA® components are 100% protected against mismating
Note on mismating protection	All WINSTA® components are 100% protected against mismating when:
Note on mismating protection	All WINSTA® components are 100% protected against mismating when: a.) plugging different numbers of poles
Note on mismating protection	All WINSTA® components are 100% protected against mismating when:
Note on mismating protection	All WINSTA® components are 100% protected against mismating when: a.) plugging different numbers of poles b.) plugging while rotated 180
Note on mismating protection Locking lever	All WINSTA® components are 100% protected against mismating when: a.) plugging different numbers of poles b.) plugging while rotated 180 c.) plugging while laterally staggered
	All WINSTA® components are 100% protected against mismating when: a.) plugging different numbers of poles b.) plugging while rotated 180 c.) plugging while laterally staggered d.) plugging one pole
Locking lever Locking of plug-in connection	All WINSTA® components are 100% protected against mismating when: a.) plugging different numbers of poles b.) plugging while rotated 180 c.) plugging while laterally staggered d.) plugging one pole Can be retrofitted
