#### Item description

#### Cable assembly WINSTA® KNX rated current 3 A

Use effective pluggable connections instead of laborious screw connections: With the *WINSTA*® KNX cable assembly rated current 3 A. WAGO pluggable installation connectors are used when criteria repeat or are planned on a defined pattern, for example for installing grid lighting or flushmount lighting. The coding options reduce installation errors, allowing fast, secure wiring of all components. The pluggable installation connector is protected in accordance with protection type IP20 (Only when mated and secured with a strain relief housing (These compact connectors are not designed for use in open, easily accessible areas.)). That results in the fact that users' fingers will never come into contact with live elements. The standardised KNX interface represents a manufacturer-independent communication protocol for intelligently networking state-of-the-art home and building system technologies. *WINSTA*® KNX pluggable installation connectors with F coding are employed in the low-voltage range. This product meets all the safety requirements of fire class D; as a result it can be used in domains where fire safety is relevant. Eliminating halogens as an additive in the manufacture of this cable assembly substantially increases fire safety and reduces environmental contamination.

### Pluggable connections instead of screw connections - cable assemblies from WAGO

The cable is pre-assembled with a plug and a free end. The WINSTA® Pluggable Connection System is ideally tailored to the strict requirements of building installation. It makes electrical installation pluggable, and therefore more efficient, more reliable, and error-free. Use of this pre-assembled system reduces assembly times and installation errors at the construction site. Now you can also lower installation costs without compromising safety and quality: The WINSTA® KNX pluggable installation connector with protection type IP20 eliminates the need for servicing and prevents unnecessary downtime.

- products perfectly tailored to your requirements guarantee safe use
- with F coding for connections with protection against mismating for supplying power
- custom-engineered solutions
- fast, secure installation

# Data Notes

Note

Cables with a different fire class can be found in the eShop.

			ıta

Note on contact resistance Approx. 3 m $\Omega$  contact resistance

#### **IEC Approvals**

Ratings per	IEC/EN 60664-1
Rated voltage (III / 3)	50 V
Rated impulse voltage (III/3)	0.8 kV
Rated current	3 A
Legend (ratings)	(III / 3) ≙ Overvoltage category III / Pollution degree 3

#### Connection data

Total number of potentials	2
Conductor preparation	ultrasonically tip-bonded

### **Connection 1**

Conductor diameter	0.8 mm
Strip length	9 mm / 0.35 inch
Number of poles	2
Strip length (outer insulation)	23 mm
Connection type	Plug - Free end

### Physical data

Total length	1 m
--------------	-----

#### Mechanical data

technology	KNX
Application	KNX
Coding	F
Variable coding	No

IP20; Only when mated and secured with a strain relief housing (These compact connectors are not designed for use in open, easily accessible areas.)

## Plug-in connection

Mismating protection	Yes
Note on mismating protection	All WINSTA® components are 100% protected against mismating when: a.) plugging different numbers of poles b.) plugging while rotated 180 c.) plugging while laterally staggered d.) plugging one pole
Locking of plug-in connection	locking lever

#### Material data

Note (material data)	Information on material data can be found here
Color	gray
Insulation material	Polyamide (PA66)
Fire class per EN 50575	D <sub>ca</sub>
Contact material	Copper alloy; surface-treated
Fire load	1.217 MJ
Connector color	light gray
Strain relief color	black
Sheathed cable color	gray
Printing color of sheathed cable	black
Halogen-free	Yes
Sheath material	Halogen-free
Weight	40.4 g
Copper weight of the pipe	0.01 kg/m
